Product Name :
Laminar Flow Meter Range Instrument

Product Code :
ENGLABINGCAG1140001

Description :

Laminar Flow Meter Range Instrument

Technical Specification :

Measure the air flow of the engine, hose, or leads
Single or multi-cylinder engines
Naturally aspirated or supercharged engines
Research and development
Air Compressors

Functionalities of Laminar Flow Meter Range Instrument:

Accurate measurement of flow
Ranges available from 25 to 650 liters per second
Can be used with pulsating flows
Not affected by elbows or bends in conduits
Verified Linear Characteristics
"Square Law" Errors eliminated by adjustment
Removable element for cleaning
Improved pneumatic damping at connections Pressure

Engineering Lab Equipment India
