**Product Name:** 

Laminar Flow Meter Range Instrument

Product Code: ENGLABINGCAG1140000<sup>2</sup>

## **Description:**

Laminar Flow Meter Range Instrument

## **Technical Specification:**

Measure the air flow of the engine, hose, or leads Single or multi-cylinder engines Naturally aspirated or supercharged engines Research and development Air Compressors

Functionalities of Laminar Flow Meter Range Instrument:

Accurate measurement of flow

Ranges available from 25 to 650 liters per second

Can be used with pulsating flows

Not affected by elbows or bends in conduits

**Verified Linear Characteristics** 

"Square Law" Errors eliminated by adjustment

Removable element for cleaning

Improved pneumatic damping at connections Pressure

## **Engineering Lab Equipment India**
