

Product Name :
EFIS and EICAS Trainer

Product Code :
ENGLABINGCAG1150001

Description :

EFIS and EICAS Trainer

Technical Specification :

Magnetometer:

Magnetometer measures the local magnetic field and sends data to the AHRS for processing to determine aircraft magnetic heading. This unit receives power directly and communicates with it via an RS-485 digital interface.

Outside Air Temperature (OAT) Probe:

The Temperature Probe provides raw air temperature data.

Autopilot Interface:

The unit can also communicate with various third-party external autopilot units. With the Integrated Autopilot configured, the system issues pitch and roll steering commands to the external autopilot unit.

Power:

110V AC or 220V AC at 60/50 Hz, single phase.

Engineering Lab Equipment India
