

Product Name :
Electromagnetic Single Disk Brake

Product Code :
ENGLABINGCAG600013

Description :

Electromagnetic Single Disk Brake

Technical Specification :

"These are all original industrial parts that have been prepared such that individual active parts are clearly visible to the user, but their mechanical functionality is retained in full.
The range consists of a series of different cutaway models of drive system components.
Each of the cutaway models is firmly mounted on a base plate to which hand grips are also attached for carrying.
Drive is by hand in each case.

Features:

Demonstration of machine components and illustration of their operation."
