

Product Name :
Advanced Sequential Logic

Product Code :
ENGLABINGCAG14900003

Description :

Advanced Sequential Logic

Technical Specification :

Counters, frequency dividers, cyclic programmable timers, data transfer between two shift registers. Furthermore, the board includes interface circuits and a connector to allow for direct and easy interfacing to systems, devices and circuits prepared by the students.

The board is composed of:

- 4 bit comparators (2 off)
- 4 bit BCD counters (2 off)
- 4 •bit shift registers (2 off)
- 8 •to •1 line multiplexer
- 1 •to •8 line demultiplexer
- NOT with open collector output (4 off)
- Optoisolators (4 off)
- A 22 •pole connector, step 3.96 mm
