

Email : sales@engineeringlabequipments.com

Product Name :
Types Of Amplifiers

Product Code :
ENGLABINGCAG14900011

Description :

Types Of Amplifiers

Technical Specification :

Theoretical topics of Types Of Amplifiers

Phase inverter or buffer circuit

Darlington configuration amplifier

Differential amplifiers

Operational amplifiers

Inverting configuration

Non inverting configuration

Voltage follower

Offset voltage

Slew rate

Single supply operational amplifiers

Switching amplifiers

Power amplifiers

Switching operation

Converter or electronic switch

DC DC converter

Fault simulation

Circuit blocks of Types Of Amplifiers

Phase separator
Darlington connection amplifier
Differential amplifier
Operational amplifier: reduction of the offset voltage, inverting and noninverting configuration, and slewrate
Voltage follower
Voltage current converter
Current voltage converter
Single supply operational amplifier
Step up DC DC converter
Stepa down DC DC converter

Engineering Lab Equipment India
