Product Name :
Fluid Friction Training

Product Code :
ENGLABINGCAG7900003

Description :

Fluid Friction Training

Technical Specification :

Fluid Friction Training
Investigating friction loss in open pipes
6-tube manometer, filled with water
Tank made of PMMA
Pipes and valves made of PVC
Measured section with 6 measuring points
Experimental set-up with filler pipe, overflow pipe, and outlet pipe

Technical Data of Fluid Friction Training
Tank: approx. 8L
Multitube manometer: 6 tubes
Measuring Range
Water column: 600mm

Engineering Lab Equipment India
