Product Name :
Statics Experiments Kit

Product Code :
ENGLABINGCAG830002

Description :

Statics Experiments Kit

Technical Specification :

All experiment elements are made in special anodized aluminium.

Centres of gravity of various shaped plates:

Drawing panel.

3 Cords and ring.

5 Cords and ring.

Beam balance.

Beam.

2 forces equality divided.

The simple pendulum.

Pivot screw.

Adjustable hooks.

Set of weights:

10 weights of 0.01 N.

4 weights of 0.05 N.

10 weights of 0.1 N.

2 weights of 0.5 N.

4 weights of 1 N.

2 weights of 2 N.

1 weight of 5 N.

Weight hooks.
Light weight hooks.
Pulleys.
Screws.
Knurled nuts.
Large ext. spring.
Small ext. spring.
Dynamometer.
Spare rope.
