Product Name :
Base Panel

Product Code :
ENGLABINGCAG830005

Description :

Base Panel

Technical Specification :

Support for the elements of the modules type .
Students are expected to build the experiments on the base panel, where distance measurement are possible due to equidistant spaces between holes on this base panel.
Anodized aluminium structure.
Front Panel in painted steel.
The holes on the base panel are accurately spaced at 25 mm centres.
