

Product Name :
Creep Testing Unit

Product Code :
ENGLABINGCAG8500012

Description :

Creep Testing Unit

Technical Specification :

Table unit for the investigation of the creep behaviour of different materials
Flat specimens made of lead and PE
Specimen cross-section 2x5mm, measured length 25mm
Tensile stress range 5...25N/mm²
Position measurement gauge 0...10mm, resolution 0.01mm
Experiments above or below room temperature possible with conditioning box

Specimen
Material: lead, PE
Cross-section: 2x5mm
Measured length: 25mm
Tensile stress range: 5...25N/mm²

Position measurement
Range: 0...10mm
Resolution 0.01mm

Engineering Lab Equipment India
