

Product Name :
Reaction Turbine Module

Product Code :
ENGLABINGCAG870002

Description :

Reaction Turbine Module

Technical Specification :

A single stage, radial flow , two jet reaction turbine with a throttle valve and belt brake dynamometer. Inlet and outlet air temperatures are recorded allowing the temperature drop due to work output to be measured.

Inlet and outlet air pressures, temperatures and air flow rate, turbine torque and speed are recorded by a combination of instrumentation on Compressible Flow Range base unit and the optional module.
