

Product Name :
Centrifugal Compressor Module

Product Code :
ENGLABINGCAG9100010

Description :

Centrifugal Compressor Module

Technical Specification :

Performance of a centrifugal fan
Variation of fan performance with speed
Variation of fan performance with type of impeller
Non-dimensional performance curves
Determination of the specific speed of the fan
Essential Base Unit
Universal Dynamometer

Recommended Ancillaries
(frame mounted version of the Versatile Data Acquisition System)
Pipe Flow and Nozzle Kit

Essential Services
Electrical supply (for the Universal Dynamometer):
Phase to neutral supply - 230 VAC, 50 Hz at 20 A
Phase to phase supply - 220 VAC, 60 Hz at 20 A

Engineering Lab Equipment India
