Product Name :
Universal Testing Machin Rotating Fatigue Machine

Product Code :
ENGLABINGCAG920007

Description :

Universal Testing Machin Rotating Fatigue Machine

Technical Specification :

Loading accuracy as high + 1%. Speeds: Straining at variable speeds to suit wide range of materials.
Facilities for tests: Motor-driven threaded columns for quick and convenient adjustment of lower cross head to facilitate rapid fixing of tear specimen.
Autographic recorder: Simultaneous roll autographic recorder supplied as standard to enable study of the behaviors of materials.
Ideal Dia.: High reading accuracy due to large size ideal design of dial.
Large columns: Large effective clearance between columns enables testing of standard specimen as well as structures.
Easy Changeability: Easy change from phain to threaded and screwed specimens. Simple and Safe: Simple to operate.
Robust construction. Chrome plated metal components. Wide range of standard and special attachments / accessories available.

Engineering Lab Equipment India
