Product Name :
Hydraulic Servo Shear Testing Machine For Rubber Bearing

Product Code :
ENGLABINGCAG9600004

Description :

Hydraulic Servo Shear Testing Machine For Rubber Bearing

Technical Specification :

Capacity: 10000kN
Load measurement range: 0.4%100%
Load measurement accuracy: 1%
Load resolution: 1/500000 of Max capacity, no stepping, no change in full scale
Piston displacement measurement accuracy: 0.5%
Piston speed adjustment range: 0.140mm/min
Piston travel of vertical cylinder: 200mm
Horizontal shear capacity: 2000kN
Horizontal piston travel: 250mm
Rotation lifting capacity: 500kN
Upper/lower compression platen distance: 1000mm(or customized)
Compression platen dimensions: 1000mm1000mm
Axial deformation measurement range: 020mm
Lateral deformation measurement range: 010mm
Horizontal shear deformation measurement range: 0150mm
Frame dimensions: 555016504400mm3
Hydraulic system dimensions: 1040720975mm3
Power supply: 24kW/AC380V/50Hz

Engineering Lab Equipment India
