Product Name :
Pipeline Pigging Demonstrator

Product Code :
ENGLABINGCAG10400007

Description :

Pipeline Pigging Demonstrator

Technical Specification :

Water is the available working fluid
Circulation equipment provided
See-through plastic horizontal pipeline
Transparent plastic launching and receiving stations
Manual valves for fluid flow control, de-pressuring, loading, launching and receiving stages
Complete unit mounted on a utility size cart for ease of movement and storage
Approximate overall dimensions 1050 x 600 x 1000 mm high
Available in all world voltages frequencies

Engineering Lab Equipment India
