Product Name :
Steam Power Plant 20kW with Process Control System

Product Code :
ENGLABINGCAG11100002

Description :

Steam Power Plant 20kW with Process Control System

Technical Specification :

Design and function of a complete steam power plant with control and regulation system
Start-up, operation, shut down, servicing and maintenance of a steam power plant
System control and monitoring via a process control system
Recording and evaluation of the most important operating parameters
Determining: input and output power, component and system efficiency, specific fuel consumption
Complete steam power plant with process control system based on Ethernet and PLC
Plant monitored and controlled via touch screen control station

Engineering Lab Equipment India
