

Product Name :
Dynamic Friction In Cylindrical Pin Roller

Product Code :
ENGLABINGCAG1160002

Description :

Dynamic Friction In Cylindrical Pin Roller

Technical Specification :

Together with the drive unit
Frictional forces in different friction pairs and loads
Frictional forces with different lubrication
Frictional forces at different relative speeds of the friction partners
Wear under different friction parameters
Frictional forces between two sliding friction pairs
Investigation of wear
Use of different lubricants possible
