Product Name :
Frictional Vibrations

Product Code :
ENGLABINGCAG1160003

Description :

Frictional Vibrations

Technical Specification :

Together with the drive unit
Observation of the transition from static to dynamic friction
Influence of lubrication on slipstick phenomenon
Influence of the force between the friction partners on the slipstick phenomenon
Influence of the relative velocity of the friction partners on the slipstick phenomenon
Slip Stick phenomenon at the transition from static to dynamic friction
Friction rings of different materials for the study of different friction pairings

Engineering Lab Equipment India
