

**Product Name :**  
6 Axis Robotic Trainer

**Product Code :**  
ENGLABINGCAG2300001

**Description :**

6 Axis Robotic Trainer

**Technical Specification :**

**6 Axis Robotic Trainer**

3 mm high quality stainless steel construction to keep it away from rusting.  
6 degree of freedom robot arm with more untrammied flexible experience.  
Most parts are integrated punch-formed at one time, which is very strong and easy to install.  
All movement joints are using high quality bearings with good precision.  
Full 6 axis moving to do extra extension and support 180° robot servo.

**6 Axis Robotic Trainer**

Axis vertically articulated robot arm system designed as a cost effective solution for bench top automation.  
500 mm reach 5/6 axis articulated format  
Easy mounting of tools, grippers or sensors  
Fully enclosed (wiring goes through the arm)  
Optional incremental encoder watchdogs  
Simple intuitive teach pad  
Input/output interfacing  
Non-volatile memory  
User-friendly software  
Complete with controller, software, on-screen manuals and cables.
