

Product Name :
Flexure Testing Machine Hand Operated

Product Code :
ENGLABINGCAG360009

Description :

Flexure Testing Machine Hand Operated

Technical Specification :

Flexure testing machine hand operated are precisely designed to test accurate flexural strength of concrete beams.

The design provides utmost rigidity throughout their working range.

The load is applied by the top of the machine through the piston fitted on top.

A spacer is for testing of specimen different size of beams.

The load is indicated on a calibrated gauge of range: 0 - 100 kN x 0.5 kN (0- 10,000 kgf x 50 kgf).

Light weight, rugged high strength frame

Self-aligning roller assembly

Hydraulic jack provided with retraction spring

For 100 x 100 x 500mm and 150 x 150 x 700mm testing beams.
