

Product Name :
Hydraulic Shrinkage Mould

Product Code :
ENGLABINGCAG3900014

Description :

Hydraulic Shrinkage Mould

Technical Specification :

This version is used for the determination of linear shrinkage of cement mortars (EN 12617-4).
Three gang mould, individually tested with certified instruments.
The same mould can be used for testing grouts conforming to EN 12808-4 replacing the standard plugs with the mould and placing two 15x40x160 mm plastic inserts inside each compartment.
Made of special alloy steel, minimum hardness HV200.
The shrinkage measurement has to be done with the Length comparator.
