

**Product Name :**  
Proctor Moulds and Rammers

**Product Code :**  
ENGLABINGCAG400028

**Description :**

Proctor Moulds and Rammers

**Technical Specification :**

The mould includes collar, mould body and base plate.  
The rammer construction includes a guide sleeve with vent holes.  
Different versions are available that conform to the various commonly used standards.  
They are all made of plated steel and are identical in shape, only differing slightly in diameter and capacity.  
Used for determining the relationship between the moisture content and density of compacted soil.  
In this section moulds and rammers conforming to ASTM/AASHTO are shown.  
For the extrusion of soil specimens from the mould, the Universal specimen extruder may be used.
