

Product Name :
Spectro Sample Polisher Machine

Product Code :
ENGLABINGCAG430006

Description :

Spectro Sample Polisher Machine

Technical Specification :

Other Details:

Anti Fungal, Rust Proof Paint

Machine to suite the Disc Housing and to cover the Disc Plate by 180 Degrees for safety

Made Up of Steel with Air Gripping Arrangement to Alundum Disc and with Locking System to Keep the Alundum Disc in Position

At the back of the Disc Housing, the Pipeline connected to the Dust-Collecting Unit

In Continues Process, there is Noise Less Operation

Specifications :

Working type - Automatic

Power source - Electric

RPM - 1440

Power consumption - 3-6 KW

Voltage consumption - 220 V

Abrasive Disc - 300 to 350 MM Diameter

Suction motor - 1 hp minimum, 2800 rpm, 415V AC, 50hz.

Disc motor - 2 hp or better, 1440 rpm (minimum approx), 3ph, 50hz, 415 vac

Air suction rotation speed - Approx. 1500 Rpm

Machine Stand - Motor Starter on Machine Stand

Disc Plate - Made of Steel

Disc Housing - Cost Iron
Weight - 100 – 1200 KG.

Engineering Lab Equipment India
