#### **Product Name :** Spectro Sample Polisher Mach

### Product Code : ENGLABINGCAG4300006

### **Description :**

Spectro Sample Polisher Machine

## **Technical Specification :**

Other Details: Anti Fungal, Rust Proof Paint Machine to suite the Disc Housing and to cover the Disc Plate by 180 Degrees for safety Made Up of Steel with Air Gripping Arrangement to Alundum Disc and with Locking System to Keep the Alundum Disc in Position At the back of the Disc Housing, the Pipeline connected to the Dust-Collecting Unit In Continues Process, there is Noise Less Operation Specifications : Working type - Automatic Power source - Electric RPM - 1440 Power consumption - 3-6 KW Voltage consumption - 220 V Abrasive Disc - 300 to 350 MM Diameter Suction motor - 1 hp minimum, 2800 rpm, 415V AC, 50hz. Disc motor - 2 hp or better, 1440 rpm (minimum approx), 3ph, 50hz, 415 vac Air suction rotation speed - Approx. 1500 Rpm Machine Stand - Motor Starter on Machine Stand Disc Plate - Made of Steel
