

**Product Name :**  
Humidifier

**Product Code :**  
ENGLABINGCAG450009

**Description :**

Humidifier

**Technical Specification :**

It is splash plate rotating disc type.

Designed to give humidity as high up to 95% RH in enclosed area.

Body Tank made of Stainless Steel 304 grade.

Capable of Atomizing up to 3.0 Liter of water/Hr at full evaporation in the driest Ambient Condition.

Technical Parameters :

Housing Material: Stainless Steel with Castor wheel

Duty Cycle: Continuous

Motor: 1/20 top quality HP motor

Optional: Interior and Exterior for all stainless steel 304 grade Humidity Controller with timer box for above unit

Power Consumption: Single Phase AC Supply 220/230V AC supply
