

Product Name :
Laboratory Vertical Autoclave

Product Code :
ENGLABINGCAG4500012

Description :

Laboratory Vertical Autoclave

Technical Specification :

Precise De-greased and Pre located outer Mild Steel chamber duly powder coated and painted sheet.
Glass wool Insulation keeps the surface Temperature normal and avoid heat or steam loss.
Steam generation / sterilization for unique design of Radial locking for minimum steam loss.
Lid made of mild Stainless Steel lined for double protection.
Stainless Steel thick Lined Lid for All outer Stainless Steel outer Body 304 grade.
Fitted Painted mild steel radial locking duly chrome plated and ring.
Adjustable pressure 5PSI -20PSI range
Automatic water Cut off Device with Alarm
Pressure control switch
Timer up to 0-60 minutes
Digital Timer or Digital Indicator 0 to 999 Min/Hrs.
Provided paddle lifting device.
Supplied Stainless Steel cylindrical basket.
