

Product Name :
Lab Rotary Vacuum Evaporator

Product Code :
ENGLABINGCAG4500022

Description :

Lab Rotary Vacuum Evaporator

Technical Specification :

Rotary Oil sealed Pumps are operating and Vibration less.
Designed for continuous duty.
Mild Steel Angle and duly painted housing sheet.
Metal case pump mechanism contained with oil sight gauge drain plug at base.
Motor Driven Pumps are completely mounted on painted rectangular base plate with pulley and V belts.
Technical Parameters:
Housing Construction: Mild Steel powder coated sheet plate housing duly
Non Return Valve
Moisture Trap
Vacuum Gauge
Duty Cycle: Continuous
Power Supply: Single Phase AC Supply 220/230V AC supply 50 Hz
Optional: Customer requirement capacity of Single motor and double stage V motor pump
