

Product Name :
Tablet Hardness Tester

Product Code :
ENGLABINGCAG4500023

Description :

Tablet Hardness Tester

Technical Specification :

Digital display microprocessor operated instrument and features and highly user-friendly keypad interface ensuring fast measurements.

Tablet hardness testing used of laboratory technique.

Tablet hardness testing breaking point of a tablet.

Maximum 25 tablet at one time.

Tablet hardness testing machine can measure hardness strength of all types of tablets.

Technical Parameters :

Housing Material: Mild Steel body duly with powder coated

Hardness Ranges: 5 to 500N

Samples: Maximum no of samples 25 tablets

Measurement: Range: 1N- 300N

Dimensions: Width: 0-25 mm, Thickness: 0-10 mm, Diameter: 45 mm

Temperature Stability: 5°C - 50°C

Power Supply: Single Phase AC Supply 220/230V AC supply 50 Hz

Engineering Lab Equipment India
