

Product Name :
Friability Test Apparatus

Product Code :
ENGLABINGCAG450024

Description :

Friability Test Apparatus

Technical Specification :

Single and double drum with revolution counter.

Construction/Housing: Mild Steel body duly tapered, with powder coated paints having acrylic rotating sealed drum fitted with round shape suitable quality motor and better durable working

Control Panel: Mains and mechanical timer 0 to 60 minutes

Optional: Mains and mechanical timer 0 to 60 minutes

Voltage: Single phase AC supply 220/230V AC supply 50 Hz
