

Product Name :
Laboratory Ball Mill

Product Code :
ENGLABINGCAG4500030

Description :

Laboratory Ball Mill

Technical Specification :

Electrical operated for mixing and grinding
Capacity of a few 1 kg to 2 Kg
Fitted with FHP motor
Heavy duty aluminium jar
Maximum speed of 80 RPM of unit drive
Mixing and grinding pesticide powder for steel balls of different size to put in Jar
Interchangeable jar and removable jar
Laboratory ball mill light weight compact.
Technical Parameters :
Housing Material : Duly painted Aluminum Jar
Duty Cycle : Continuous
Power Consumption : Single Phase AC Supply 220/230V AC supply $\pm 10\%$
Optional : Steelness Steel or Aluminum

Engineering Lab Equipment India
