

Product Name :
Rotary High Vacuum Pump

Product Code :
ENGLABINGCAG4500031

Description :

Rotary High Vacuum Pump

Technical Specification :

Vibration less rotary oil sealed Pumps are quiet operating.

Mild Steel Angle and sheet housing duly painted.

Continuous Duty Designed.

Drain plug metal case with oil sight gauge.

Motor Driven Pumps are completely furnished with pulley and V belt mounted on painted rectangular base plate.

Pump mechanism contained.

Technical Parameters :

Housing Material: CRC Powder Coated with Mild Steel

Duty Cycle: Continuous

Power Consumption: Single Phase AC Supply 220/230V AC Supply 50Hz

Optional :

V. Pump for single and double Stage

Non Return Valve

Moisture Trap

Vacuum Gaugem

Engineering Lab Equipment India
