

**Product Name :**  
Laboratory Hot Plate

**Product Code :**  
ENGLABINGCAG4500033

**Description :**

Laboratory Hot Plate

**Technical Specification :**

Mild Steel body having Unique design of powder coated with gap of cast Iron top from the body.  
Ambient to 300°C Temp.  
Energy Regulator having marked 0-100, at minimum energy and at max. position it release max. Temperature Controlled.  
Top Cast Iron Diameter having heat resistant Paint is having 7.5".  
Optional : ER Thermostat control in place of applied.  
Technical Parameters :  
Control Panel: Mains Panel and Load Indicator, Energy Regulator  
Duty Cycle: Continuous  
Housing Material: CRC Powder Coated with Mild Steel  
Power Consumption: Single Phase AC Supply 220/230V  
Optional: Steeliness Steel 304 grade Customer demand on request, thermostat in place of ER
