

Product Name :
Rotary Shaker

Product Code :
ENGLABINGCAG4500038

Description :

Rotary Shaker

Technical Specification :

Used heavy mild steel for fabricated assembly frame section duly painted or powder coated.
Accommodate uniform platform interchangeable to clamps of different size for different capacity of Flask.
Counter Balanced drive high stability and reliability mechanism ensure in regular operation.
Fixed and variable speed available.
Free maintenance Induction drive motor.
Variable speed from 100 to 180 RPM and 20 to 180 RPM as per requirement
19mm diameter Uniform circulation to Load platform in Horizontal Plane.
25mm dia. Uniform Circulation motion in horizontal plane for heavy duty Rotary Shaker.
Technical Parameters :
Housing Material: Fabricated assembly with heavy Mild Steel, unit duly painted or powder coted.
Duty Cycle: Continuous
Power Consumption: Single Phase AC Supply 220/230V AC supply +- 10%
Optional :
Digital RPM meter with DC drive
Spare Tray for above unit different capacity
