

Product Name :
Triple Beam Balance with Vernier

Product Code :
ENGLABINGCAG4500049

Description :

Triple Beam Balance with Vernier

Technical Specification :

The three-point base, special floating bearing principle and beam design eliminates the need for level adjustment.

With aluminum pressure castings for the base and beam assembly, agate bearings, steel knife-edges, and stainless steel pan, everything about the balance ensures a high standard of quality.

Zeroing is quickly achieved by means of a zero adjust knob at the end of the beam.
