

Product Name :
Fume Hood Cabinet

Product Code :
ENGLABINGCAG4500050

Description :

Fume Hood Cabinet

Technical Specification :

These hoods are suitable for providing personal protection needed for general chemistry applications involving fumes and vapors.

Choose from hoods designed to be used with a remotely-located blower or hoods that include a built-in blower — the only high performance hood with built-in blower available anywhere.

They meet the SEFA-1 standard of a low velocity, high performance hood and may be safely operated as low as 60 fpm.

Explosion-proof hoods with built-in blower are available for laboratories with potentially explosive/flammable atmospheres (Class 1 Div I or II).

Without seams, the interior has fewer points of deterioration for longer life.

The one-piece liner of specially-formulated, fiberglass-reinforced polyester offers corrosion and fire resistance and easy clean up.
